THE THOUSANDS OF DOLLARS SENT

Moneyed Institutions in Wall Street that have Lived Off Syndicate Operations Made to Contribute Heavily—Repeaters Forwarded Mr. W. L. Scott, acting Chairman of the

National Democratic Committee, said yesterday in reply to an inquiry about the approaching elections in Ohio and Indiana:

"Ohio has long been a Republican State in Presidential years. Our friends there have hopes of carrying it next week. While there are many indications that favor their hopes, we shall not be greatly disappointed if it goes Republican by from three to seven thousand. Indiana is a Democratic State. The people of Indiana, if free to express their wishes, would undoubtedly give a very large Democratic ma-

Only the possibility of defeating us there has been public corruption and coercion. It is simply a matter of time before we are bought, intimidated, or defrauded. I do not believe I can, and, in spite of all the confidence of our opponents that they will carry it, I look for a crushing Democratic victory there on the 12th inst. I know that the character of the efforts the Republicans are making to elect us is not at all commensurate with the Republicans in Boston, \$100,000 in Philadelphia, and a very large sum in New York. I have not been able to collect here by one person. And the fact that the Democrats are doing this in this city a few nights since, and constituted themselves a committee to raise funds in the city of Indianapolis, is a very serious matter. Ohio, represented not less than from two to three hundred persons, and a sum of \$20,000 were alluded to. But the fact that Indiana within the past ten days, between the 1st and 10th inst., had received \$100,000 sent from this city, and one lot of 130 persons, including the principal portion of the latter are Government men, and persons employed by the city Government in Indiana, all of whom are men of the most desperate characters, and all from the same country, is a very serious matter. I am sure that the work on election day, The importation of negroes from all quarters, even from the States of Ohio, Kentucky, and Tennessee, on openly, and it is no secret that all the power that is in the hands of the Democrats in this city, is being used, and it is to be used to have Ohio and gain Indiana to the Republican cause.

vast sums for the October elections know that they are not needed for legitimate expenses. They can stand in the centre of Wall street and throw stones at the Government and the people from five to ten bankers and banking firms who derive profits from Government patronage amount to millions. One national bank, with a capital of \$500,000, within the past three years suddenly acquired a surplus of \$1,000,000. Several banks have increased their capital. These banks sometimes have been monopolists of the gains of the syndicates, and have made

Judge T. W. Bartley of Washington, D. C., ex-Governor and ex-Chief Justice of the Supreme Court, writes to the editor of the Democratic National Committee's Headquarters, Kansas City:

He has made recently an extended canvass in Ohio, and spoken in many of its interior counties. He said of the canvass in that State: "I have been everywhere, and have seen the condition of the Democratic prospects in Ohio, and it is my opinion, formed from observation and information acquired in the State, that the Democratic party will carry Ohio—their votes will be decided by a vote of five to ten thousand majority. During my absence I met many Republicans who declared that they would vote for Hancock, though they intended to vote for the Democratic party. Gen. Hancock is the only man in the State ticket, and will poll a decidedly larger vote in

November than will the State ticket next Tuesday. The Democratic party was never under such a serious and complete organization, and so active and determined and so unanimous as they are this fall."

A Fatal Steamboat Collision that was Probably Caused by Color Blindness.

WASHINGTON, Oct. 5.—A few years ago a collision occurred near Norfolk, Va., between the tugboat Lumberman and steamship Isaac Bell, resulting in the

loss of left eyes. A long Coroner's inquest was held, without definite result, the general impression being that one or more of the pilots had been shot down. The bodies were recovered of this, however, and the pilots were released. The pilot of the tugboat Lutherman was examined by the surgeon general and found to be completely color blind. Mr. Hughes, in Ohio and Franklin W. Smith of Boston, and hope are to plant on these highlands a community of men and women, who will be the best of our country. By these grand truths, we will be able to lift our country out of poverty and foolishness and wealth, but a society in which we are not members, who are not as we hope mind if not all of them will be. It is the duty of every man and woman to help with the hands, with the brain and culture that they have

Lively Primaries in Queens.

On Monday evening the Democratic primaries to elect delegates to the Queens County and Assembly Conventions were held at the town hall on Long Island City. In most of the towns a vote almost equal to that polled on election day was out, and the flight was rather for the delegations to the County Convention. The voters were not getting cheery about the time. In the town of Newlawn the primary was broken up, and the ballot box taken away, by a gang from Laurel Hill.

A clerk who was with him picked the paper up and offered it to Wyckoff. Wyckoff was about to assault the clerk with his fist when Miller stepped in and stopped him. In court Wyckoff said he thought Miller was a high mawyer, and he struck to defend himself. Justice afterwards required Wyckoff to give bail for trial.

Elections in Delaware.

WILMINGTON, Del., Oct. 5.—An election for Inspectors and assessors was held throughout this state today, and was closely and hotly contested. Very few returns were in, but in Wilmington the Republicans received 53 1/2 per cent of the vote for inspectors, and 54 per cent for assessors. The returns from the other parts of the state are coming in slowly. The vote very largely

The Christianized Divorce Suit.
